COMPANY SNAPSHOT

Bunny Inc. is making a lot of noise in the voice casting market, disrupting the way voice actors and buyers connect. Before, the process of finding voice actors for a project took weeks and could cost thousands of dollars. Today, thanks to Bunny Inc's VoiceBunny and Voice123 online platforms, buyers anywhere in the world can find professional voices in less than ten minutes. By dramatically lowering the cost and time to acquire a voice, Bunny Inc. is opening the market to many new applications for professional voices.
