COMPANY SNAPSHOT

“Can you hear me now?” If you’re in Colombia and the answer is yes, you can thank Daniel and Jorge of TES América for a strong, clear wireless signal.

Founded in Bogotá in 1999 and backed by a world-class group of engineers, computer scientists and technicians, the company designs, optimizes, and monitors wireless communication networks to create industry-specific solutions. In Colombia, which has 80% mobile penetration, TES América has positioned itself as the leading service provider to telecommunications operators and it has recently branched out to other industries such as healthcare.

ENDEAVOR AND TES AMÉRICA

The Entrepreneurs have benefited from local mentorship, collective trainings, and networking, among other services. In 2010, they also received support through the global eMBA program.
