## COMPANY SNAPSHOT

Founded in 1999, Trabajando.com is a rare case of an Internet portal that weathered the “dot-com” storm to find new life on the other side. More than just an online job site, Felipe and Juan’s site offers a wide range of services within the labor market, developing personalized recruitment process software, hosting job fairs and HR exhibitions, and offering a human resources consulting service. Trabajando.com has grown its reputation as one of the top job search engines in Latin America, Spain and Portugal, and has opened offices in 7 countries.

Since selection by Endeavor, company revenues have grown by 260%.

**ENDEAVOR AND TRABAJANDO.COM**

After selling a stake of the company in 2007, Felipe and Juan gained assistance expanding to Spain and throughout Latin America with the help of Endeavor offices in Mexico, Brazil, and Colombia.

In addition to raising considerable financing through the local Endeavor network, the Entrepreneurs have also benefited from Global programs (e.g., Top 25, Ernst & Young Fellows), Immersion Tour, and Entrepreneur Summit.

Demonstrating their commitment, the entrepreneurs have created a job search portal for Endeavor Chile.
