COMPANY SNAPSHOT

With the goal of providing reliable, user-friendly and accessible quality control solutions to the pharmaceutical industry, Felipe and Santiago have built Lixis into a successful company with a strong local reputation and high growth potential. In Argentina, a country little known for technological innovation of this kind, Lixis is pioneering the development of medical QC devices for the global market.

ENDEAVOR AND LIXIS

With Endeavor's support, the company has expanded to Europe and throughout Latin America, and also developed new services.

The Entrepreneurs have benefited from local mentorship and GEMAS program, as well as the Global eMBA program.
