COMPANY SNAPSHOT

SySDSsoft is an innovative Egyptian business that specializes in developing cutting-edge wireless communications technology. Implementing a cutting-edge business model for technology exports, SySDSsoft is shaping how WiMax is used around the world. The company is working on solving some of the most challenging technical issues facing wireless technologies such as WiMax, WiFi, and Bluetooth.

In March 2011, SySDSsoft was acquired by Intel. In July 2011, it was announced that Khaled will assume the role of Board Chairman, Endeavor Egypt.
