COMPANY SNAPSHOT

Onapsis Inc. is the leading provider of cyber security solutions to audit and protect business-critical applications, including Enterprise Resource Planning (ERP), Supply Chain Management (SCM) and Business Intelligence (BI).

The company's solutions empower information security and audit professionals to understand and efficiently mitigate the cyber security risks affecting their SAP, Oracle and other business-critical applications, preventing espionage, sabotage and financial fraud attacks while streamlining compliance with internal and regulatory requirements.

As the industry standard, trusted by the leading audit firms and deployed by Global 1000 and military organizations, Onapsis X1 is the most widely-used solution to detect cyber security risks and compliance violations affecting SAP business platforms. Unmatched by generic security monitoring products, Onapsis X1's unique SAP-certified capabilities integrate seamlessly into existing GRC and Risk Management practices, providing unprecedented visibility to protect critical business processes and information.

At the heart of the company, the Onapsis Research Labs consists of the thought-leaders that continue to redefine the ERP security industry. Being the first experts to uncover and report on business-critical cyber security vulnerabilities, the team is continuously invited to lecture on current and future threats to business platforms, including SAP and Oracle, at world-leading security conferences. This laser-focused, innovative research is continuously incorporated into Onapsis products, enabling customers to rely on a comprehensive and widely-adopted ERP cyber security solutions in the industry.
